Poky Wins AGAIN – Idaho Falls Wins, Also

Thanks to all of your efforts and the people who entered our juried show, we had a very good exhibition for our **19th Annual Juried Show and Sale at the Eastern Idaho Technical College.** Each year we think that it won't improve next year, but somehow, your talent keeps getting better! The core of a juried show is the quality of the judges, and we had three very good participants this year. **Ken Ockler** has been a long time member of our club and has spent many years perfecting his craft. **Krista Soderquist** was a member for a few years in the recent past and has always done exciting photography. **Trinity Sullivan** has her studio with a wide variety of photographic interests. And these three judges brought their expertise for this wondrous teaching experience. We know that the dinner at Garcia's can never repay your efforts on our behalf. Thanks, again!

And the photographers presented about every facet of our craft. You want wildlife – we had it. Portraits – yes. Macro – yes. Running streams – yes. Lots of computer manipulation – yes. No manipulation – yes. Straight B&W – yes. Boring – NO. Thanks to all of the photographers who entered and showed the quality of photography that is available right here in Eastern Idaho.

We were also blessed with a large number of sponsors for our show.

Without them we would not be able to attract such a good group of photographers. Thanks to the following sponsors, and please support them with your patronage:

Farr's Jewelry
Gallery Photo Lab
Randi Kirchofner
D&D Hitech Auto Clinic
Willowtree Gallery
The Framing Corner

And now to list the winners for our 19th show: **Roger BOE** from the dreaded southern Idaho city known as Pocatello just about took every prize we had to offer this year. He entered five images, and had five winners!

Best of Show – Kung Fu

1st B&W – The Offering

3rd B&W – TA Prohm Temple

4th Color – Prismatic Landscape

But we in Idaho Falls get to claim him since he has been an EIPS member almost since the inception of our club. So congratulations to Roger and Poky - and Idaho Falls! (Our club president **Sue Heng** was also five prizes for five entries, but just not quite as high up on the prize list. Lisa STEPHENS was four out of five.)

Roger did leave a few prizes for the rest of us. They are as follows:

Club Notes

Don't forget to take down your photos at the EITC show on 02 Nov 2007 by 5 p.m. They have no storage room so that if you can't make it on that day, have some other club member take them down for you.

Special thanks to Farr's Jewelry for the use of the digital projector at the last Advancement Program. We learned a lot!

From Shannon, we have learned that Inkley's can now do up to 24 x 36 prints in house without having to ship things out to SLC.

Please start thinking about nominations for club officers for next year. Please help your club by being an officer. Most of the positions only will take a small amount of your time but the club will continue to improve with your

help. A club is only as strong as the sum of its members.

We had a good turnout for our inclusion in the citywide gallery tour on October 4 in the evening. There were about 35-40 community members who came by EITC to look at our images. These would be people that may not have ever even thought about seeing a local photography show without our inclusion in the tour. Most of the people that I saw while I was there spent a lot of time looking at the various images – which I felt was a good sign. I think they truly enjoyed looking at our art. We would have been the only photography they would have seen that evening since most of the other galleries would be emphasizing paintings and sculpture. We will be discussing this event at our next meeting and we ask for any feedback that you have heard.

Field Trips

We have already seen some of the fall color images from the last field trip - - and they were spectacular. This year had a good mix of yellows with the reds in spite of how dry the summer was.

Our field trip coordinator has to resign because of health problems in her family. This means we need someone to step forward to replace her post. You do not have to go on each field trip that is set up, but we would like for someone to suggest where we go, what time we need to meet, and get the information onto our website. There are plenty of members in the club that have information about this region if you are stuck for an idea. Please step forward and help!

Advancement Program

The theme of the Advancement Program for November is: **Photographer's Choice.** Please bring three of your best images, slides, digital image files and join us at 1900 Grandview in the Conference Room at 7:30 p.m. on November 15. It is amazing how all of our photography improves as we share these images with one another.

Newsletter Costs

Costs for your newsletter keep climbing. Just the \$.02 per newsletter increase with the last postage increase adds \$14.40 in mailing costs by the end of a year. When I first started doing the newsletter 19 years ago, twenty bucks per month covered two half tone images (\$6) and \$14 for printing and mailing. Now with no half tone images, we have \$28 for printing and \$24 for postage. This is over two members' dues per month just for this tome.

We have always mailed the newsletter to the photography teachers at the local high schools as well as the other clubs in the state. We also place about ½ dozen newsletters in each of the various galleries in town to reach out to the local photographic community as part of our educational efforts. I think these should continue to show that artistic, well produced photography exists in our community.

Would going to electronic newsletters to some of our members be enough to keep the costs down? Would they be read? Would you know to look on the Internet on the right day to benefit from the e-mail? These are some questions that we need to discuss at future meetings.

Monthly Meeting

Date: Nov. 1, 2007

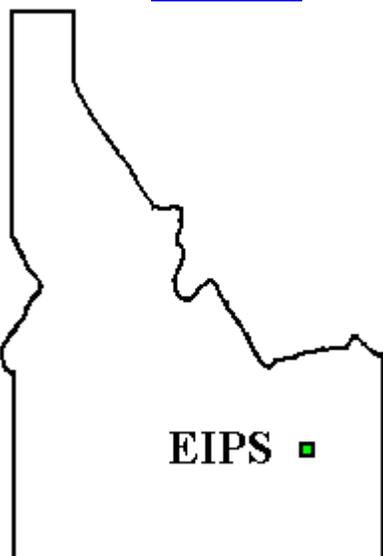

Time: 7:30 p.m.

**Location: 1900 Grandview
Ave. Conference Room**

Program:

Ah, the bane of any photographer: How to keep track of your images. Please bring the system you use to this month's meeting. Tell what you like about it, what you hate. All of us will find a better way to store our data.

Graffiti

EIPS is a group of amateur and professional photographers who have joined together to further the art and craft of photography. Please join us and expand your horizons. Sharing knowledge makes all participants better at their craft. We meet on the first Thursday of each month for our educational lecture. Then the third Thursday is our Advancement Program where we share some of the images we have done. We meet at 7:30 p.m. in the 1900 Grandview Ave conference room. We all become better photographers!

Thank you for making this years' show our best to date. If you haven't made it to EITC, you still have until 02 Nov to make it there. (Margaret Vest, good to have you back competing again!)
